## EDITORIAL

## Welcome to the European Journal of Chemistry

On behalf of the editorial team, welcome to the *European Journal of Chemistry (Eur J Chem)*. This journal was a recently established, publishing original research artilces, reviews and technical notes on the topics of Analytical Chemistry, Inorganic Chemistry, Organic and Bioorganic Chemistry, Biochemistry, Theoretical and Applied Physical Chemistry, Pharmaceutical Chemistry, Applied and Materials Chemistry, Chemical Technology, Agro Chemical Technology, Pharmaceutical Technology, Colloid Chemistry, Interfacial Chemistry, Surface Chemistry, Chemical Engineering, Green Chemistry, etc. This issue unfolds the second volume of the *European Journal of Chemistry*, and with this issue, we begin second year of continuous publication.

The *European Journal of Chemistry* is an Open Access Journal and published full text research articles are freely accessible via the Internet worldwide for the best interests of the scientific community. All interested readers can read, download, and print any Open Access article at no cost. Also, there is no subscription fee for the *European Journal of Chemistry*.

This journal accepts original research and review papers as well as letters in all areas of chemistry. A manuscript submitted to the journal for publication should be original. It should not have been previously published and should not be under consideration for publication elsewhere. All published research articles in this journal have undergone rigorous peer review, based on initial editor screening and anonymous refereeing process by at least two or more expert reviewers. Authors are encouraged to suggest referees for their work. The journal is published print and online and articles are available as online rapidly after acceptance. The published articles are expected to receive high citations as the journal develops and reaches prominence in the field.

Our aim is to encourage scientists to publish their theoretical and experimental details, while interacting and exchanging valuable information with each other. If we Judge by willingness of the authors to submit manuscripts, it seems, *European Journal of Chemistry* has done well in attracting good quality work form scientists all across the globe. We are satisfied with our great progress in accomplishing the goal of making *European Journal of Chemistry* as a well respected scholarly journal known for publishing good quality original research. However, none of this would have been possible without the assistance of dedicated and qualified editorial staff along with a large number of referees who ensured screening of good quality work. We would like to thank you all.

I expect that *European Journal of Chemistry* will attract manuscripts of the highest quality, which are of the greatest possible benefit to our readers. We are looking forward to receive your submissions. Please do not hesitate to contact the Editor, if you would like to discuss the suitability of your contribution to *European Journal of Chemistry*.
